

Our Farm

The 500 acres of farm land produces all the food needed to sustain the rehabilitation center. Any additional proceeds generated are reinvested back into the ministry allowing us to hold more meetings, festivals and plant more churches.

Cows

Seventy cows are currently on the farm and all are producing milk. Each cow has been sponsored and paid for by our partners.

Bakery

Fresh bread is baked daily and sold on the market. The proceeds are reinvested into reaching the lost

Greenhouse

Our greenhouses provide food during the winter but more need to be build to meet our needs.

Construction

The construction of new homes is a daily occurrence. All work is being performed by volunteers and people from the rehabilitation center. In exchange, they are allowed to stay and eat at the center for free until such time when they are reunited with their families. Most will accept the Lord during that time and go on serving Christ within their own communities and towns.

Ambassador
for life

Ambassador
for life

Ambassador for Life is an organization dedicated to spreading the Gospel of Jesus Christ. We also fight poverty, homelessness, illiteracy and addictions. We help the needy, plant churches and work with orphanages. Our members believe in a hand up as well as hand out and are legally connected to foundations that exist for that sole purpose. We give our best to make a difference in people's lives and we are inviting you to become one of our **Ambassadors**.

Our Work

Nikolai Pankratz
Founder

My ministry began in Russia when I first accepted Jesus Christ as my personal savior. I walked long miles to underground meetings where I experienced a deep and personal relationship with God. We former Soviet Union Christians were fined for having meetings in our homes, pastors were imprisoned for preaching Christ, and those who continued to gather were beaten, laughed at, ridiculed, tortured, imprisoned, and sometimes even killed. In the free world people have a hard time understanding how the secret police could come into your home and take relatives and members of your family away simply because of their faith in God. This happened to my family! Now we are ministering back to our people and you can take part in this exciting work.

Nina Ester Mikhailova
(Pankratz)

I was born in Moscow in a time when the people of Russia still believed in communism. I believed in the revolution, the country, the great future that we would build. I was taught to be strong, enduring, brave and ready to defend my mother land at all costs and at any time. Americans were considered the enemies of the State. God was not mentioned in schools and since the two could not co-exist I knew little about the bible. One day after a desperate and persistent prayer to the "absolute being", as I called God at that time, I met my future husband, Nikolai who with his friend Evgeni began sharing with me what God had done in their lives and this is when I received Christ as my Savior.

Government

Having lived under dictatorships we understand the importance of godly governments. As a member of an international Business and Government Cooperation Committee Nikolai has participated in many high level negotiations and meetings. The Committee has organized trips and visits of over 700 distinguished guests and heads of states from foreign countries such as President Richard Nixon, Ronald Reagan, George Bush, the presidents of the Republic of Bolivia, the People's Republic of China, the Czech Republic, Mexico, Peru, and the Republic of Poland; the Prime Ministers of the Baltic Republics, Finland, Hungary, Republic of Kazakhstan, Italy, Poland and Turkey; the ministers of foreign affairs of Australia, China, Egypt, and Sweden; the economic Minister of the Czech Republic and many others. Now, for the first time the persecuted and persecutor worship together as seen in this picture.

Radio Work

Thousands have been saved through our radio work. Nikolai has recorded over 140 songs and is taking part in a daily radio program produced in Austria, Sweden, Germany and the United States. His songs are in the Russian hymnals and are loved by old and young alike.

Church Planting

Ambassador's for Life and it's Christian Partners have collectively planted over 40 churches in the Moscow region. Here is our first church in in the city of Kaluga.

Work with Orphanages

Many orphanages are visited by our teams each year. We conduct meetings and bring gifts, clothing and presents.

Charitable Work

We ship several 40 foot containers of goods each year helping the poor and needy. Here are our volunteers separating and bagging 700 pairs of shoes to be hand delivered to Russia by one of our groups.

Rehabilitation Centers

We currently operate two rehabilitation centers. A family is typically separated until such time when both parents are considered to be sober and ready to start a new life with Christ. Daily services and bible studies are being held at the center until families are reunited once again.
